Page 1 of 1

**Implementation**

(This document is intended for a company's management team review when an interest in **WRM** has been identified for that company.)

In 2023 Dr. Victor Jean Ouellette, will set up a **Follow the Science PILOT Wellness Program** in targeted companies that have an interest in providing a new Wellness model to their workforce.

If and when, sufficient interest is available in the company's workforce, then the program to train a Wellness Risk Management Instructor assistant will begin taught by Dr. Ouellette. The instructor student, when ready, will take over **WRM** Instructor duties from Dr. Ouellette for that company.
