June 23, 2024

Neuroinflammation and Its Role in Subconcussive Brain Trauma

- Microglial Activation:
- Cytokine Production:
- Blood-Brain Barrier (BBB) Disruption:
- Oxidative Stress:

Symptoms of Subconcussive Brain Trauma

[Quote]

By focusing on education, prevention, regular monitoring, structured rest, cognitive and physical therapies, nutritional support, and emotional care, parents can help protect their children's brain health and ensure their overall well-being.
